GRIGORE T. POPA UNIVERSITY OF
MEDICINE AND PHARMACY IASI

excellence in medical education since 1879

If life is a journey, then education is the ticket - this is our credo and the manner in which we quantify the importance of education at **Grigore T. Popa University of Medicine and Pharmacy of Iasi**, a medical higher education institution with over 135 years of tradition.

Viorel Scripcariu, MD, PhD,
Rector of The “Grigore T. Popa” University of Medicine and Pharmacy of Iasi, Romania

The **Grigore T. Popa University of Medicine and Pharmacy of Iasi** is the only one medical university included in the *Times Higher Education World University Rankings*.

Currently, the university has over 10,000 students of which 2,500 are foreigners from over 60 countries.

Why *PHYSIOTHERAPY* ?

Physiotherapists: independent and autonomous professionals with the knowledge, skills and competences, prepared to have a key role in health systems taking their own decisions.

Physio-kinesiotherapy provides services to individuals and populations in circumstances where movement and function are, or may be, threatened by ageing, injury, pain, diseases, disorders, conditions or environmental factors.

Physio-kinesiotherapy promotes the active participation in society through the development, maintenance and restoration of health, movement capacity, physical activity and functional ability throughout the lifespan.

The physio-kinesiotherapist

- diagnoses the functional problems;
- provides treatment, assisting the person to restore movement and/or avoid injuring themselves further;
- seeks input from other health professionals if required;
- helps the person to achieve the best possible recovery, activity and quality of life.

Where physio-kinesiotherapist works?

- Hospitals;
- Health centres;
- Rehabilitation centres;
- Private practice;
- Schools;
- Occupational health and safety roles at workplaces.

GRIGORE T. POPA UNIVERSITY OF
MEDICINE AND PHARMACY IASI
